

# SUDARSHAN ORGANICS PVT LTD

## PRODUCT CATALOGUE

# Industries we cater to

## AGROCHEMICAL INDUSTRY

- Emulsifiers for diverse agrochemical applications
- Plant Growth Regulators (PGR)
- Insecticides, Pesticides, fungicides & Herbicides

## SEED INDUSTRY

- Seed Coating Polymer

## WOOD INDUSTRY

- Carpenter's Adhesive

# Company Overview

## PRECISION CHEMISTRY SINCE 1968

Founded in 1968, Sudarshan Organics Pvt. Ltd. is a trusted global partner in agrochemical emulsifiers, synthetic adhesives, and seed-coating polymers. With over five decades of expertise, we deliver high-performance chemical solutions engineered for consistency, stability, and international quality benchmarks.

### Serving Global Formulators

We support customers across Asia, Africa, Europe, the Middle East and Latin America, offering products known for:

- Reliable performance across diverse climates
- Batch-to-batch quality consistency
- Strong technical support and customised formulation guidance
- Compliance with global standards

### Tailor-Made Solutions

Every formulation has unique demands.

Our R&D team collaborates with international clients to create custom emulsifier blends and polymer systems that enhance stability, efficiency, and overall product performance.

### A Legacy Built on Innovation

With modern manufacturing, robust quality systems, and a commitment to sustainable chemistry, Sudarshan Organics continues to deliver dependable, future-ready solutions to partners worldwide.

# EMULSIFIERS FOR INSECTICIDES

SUDASOL CHP	For Chloropyriphos EC in Kerosene. DOSE: 4-6% Type: liquid Packing: 220 kg barrel or 50 Kg carboy
SUDASOL 8273	For Butachlor EC in Kerosene. DOSE: 4-6% Type: liquid Packing: 220 kg barrel or 50 Kg carboy
SUDASOL TH58/TJ67	General pair for C9, Aromax, Xylene based formulations DOSE: 4-6% Type: liquid Packing: 220 kg barrel or 50 Kg carboy

SUDASOL IM-12	For IMIDACHLORPRID 17.8% SL & other DMF based formulations DOSE: 1-2% Type: liquid Packing: 220 kg barrel or 50 Kg carboy
SUDASOL TCW	For Tricntanol EC in CIX / Aromax. DOSE: 4-6% Type: liquid Packing: 220 kg barrel or 50 Kg carboy
SUDASOL 1568/1585	General pair for fish oil, karanjin oil, neem oil & other natural oils DOSE: 5-8% Type: liquid Packing: 220 kg barrel or 50 Kg carboy

# OUR SPECIALITY EMULSIFIERS

SUDASOL TQM	For Nitrobenzene 20% EW DOSE: 1-1.5% Type: viscous liquid Packing: 50 Kg carboy
SUDASOL 1466	For Nitrobenzene 60% EC DOSE: 40% Type: liquid Packing: 220 kg barrel or 50 Kg carboy
SUDASOL 1488	For Nitrobenzene 80% EC DOSE: 20% Type: liquid Packing: 220 kg barrel or 50 Kg carboy

SUDASOL BT-50	For MAKING Butachlor/Pretilachlor 50% EW DOSE: 1-1.5% Type: viscous liquid Packing: 50 Kg carboy
SUDASOL DDS	For Rubber cutting oil used in rubber industry DOSE: 2-5% Type: liquid Packing: 220 kg barrel or 50 Kg carboy
SUDASOL DFT	For Dye carrier in Zipping industry DOSE: 2-5% Type: liquid Packing: 220 kg barrel or 50 Kg carboy

# ADJUVANTS & ACTIVATORS

## SUDASOL AGV

Low cost sticker  
DOSE: 1 ml/litre of water  
Packing: 220 Kg barrel or 50 Kg carboy

## SUDASOL SLG

High performance silicon spreader, sticker & activator  
DOSE: 5 ml/15 litres of water  
Packing: 220 kg barrel or 50 Kg carboy

## SUDASOL EXC

High performance Non-Ionic sticker, spreader & activator  
DOSE: 5 ml/ 15 litres of water & 2% in formulations  
Packing: 220 kg barrel or 50 Kg carboy

## SUDASPERSE

ECONOMICAL Non-Ionic sticker, spreader & activator  
DOSE: 7.5 ml/ 15 litres of water  
Packing: 220 kg barrel or 50 Kg carboy

# PLANT ESSENTIALS

PGR tablets consisting Zn,  
Humic and other hormones  
Dose: 1 tablet/15 litre  
Crops: All crops

Very High-Performance  
Tillering And Growth Agent.  
Dose: 100ml/acre or 10ml/15  
Litres  
Crops: All crops

Protien Hydrolysate &  
hormone based PGR  
Dose: 100 ml/acre or 10  
ml/15 litres of water  
Crops: All crops

## Humic Acid/Potassium Humate

- Humic Acid Powder (95% Soluble)
- Super Potassium Humate Shiny Flakes
- Potassium Humate (12% Liquid)

## Amino Acid

- Amino Acid 80% Powder(With Vitamins)
- Amino Acid 80% Free Flow Powder(Non Caking)
- Amino Acid 40%Liquid(With Special Hormones)

## Fulvic Acid

- Fulvic Acid Powder
- Fulvic Acid Free Flow Powder(Non Caking)
- Fulvic Acid Liquid

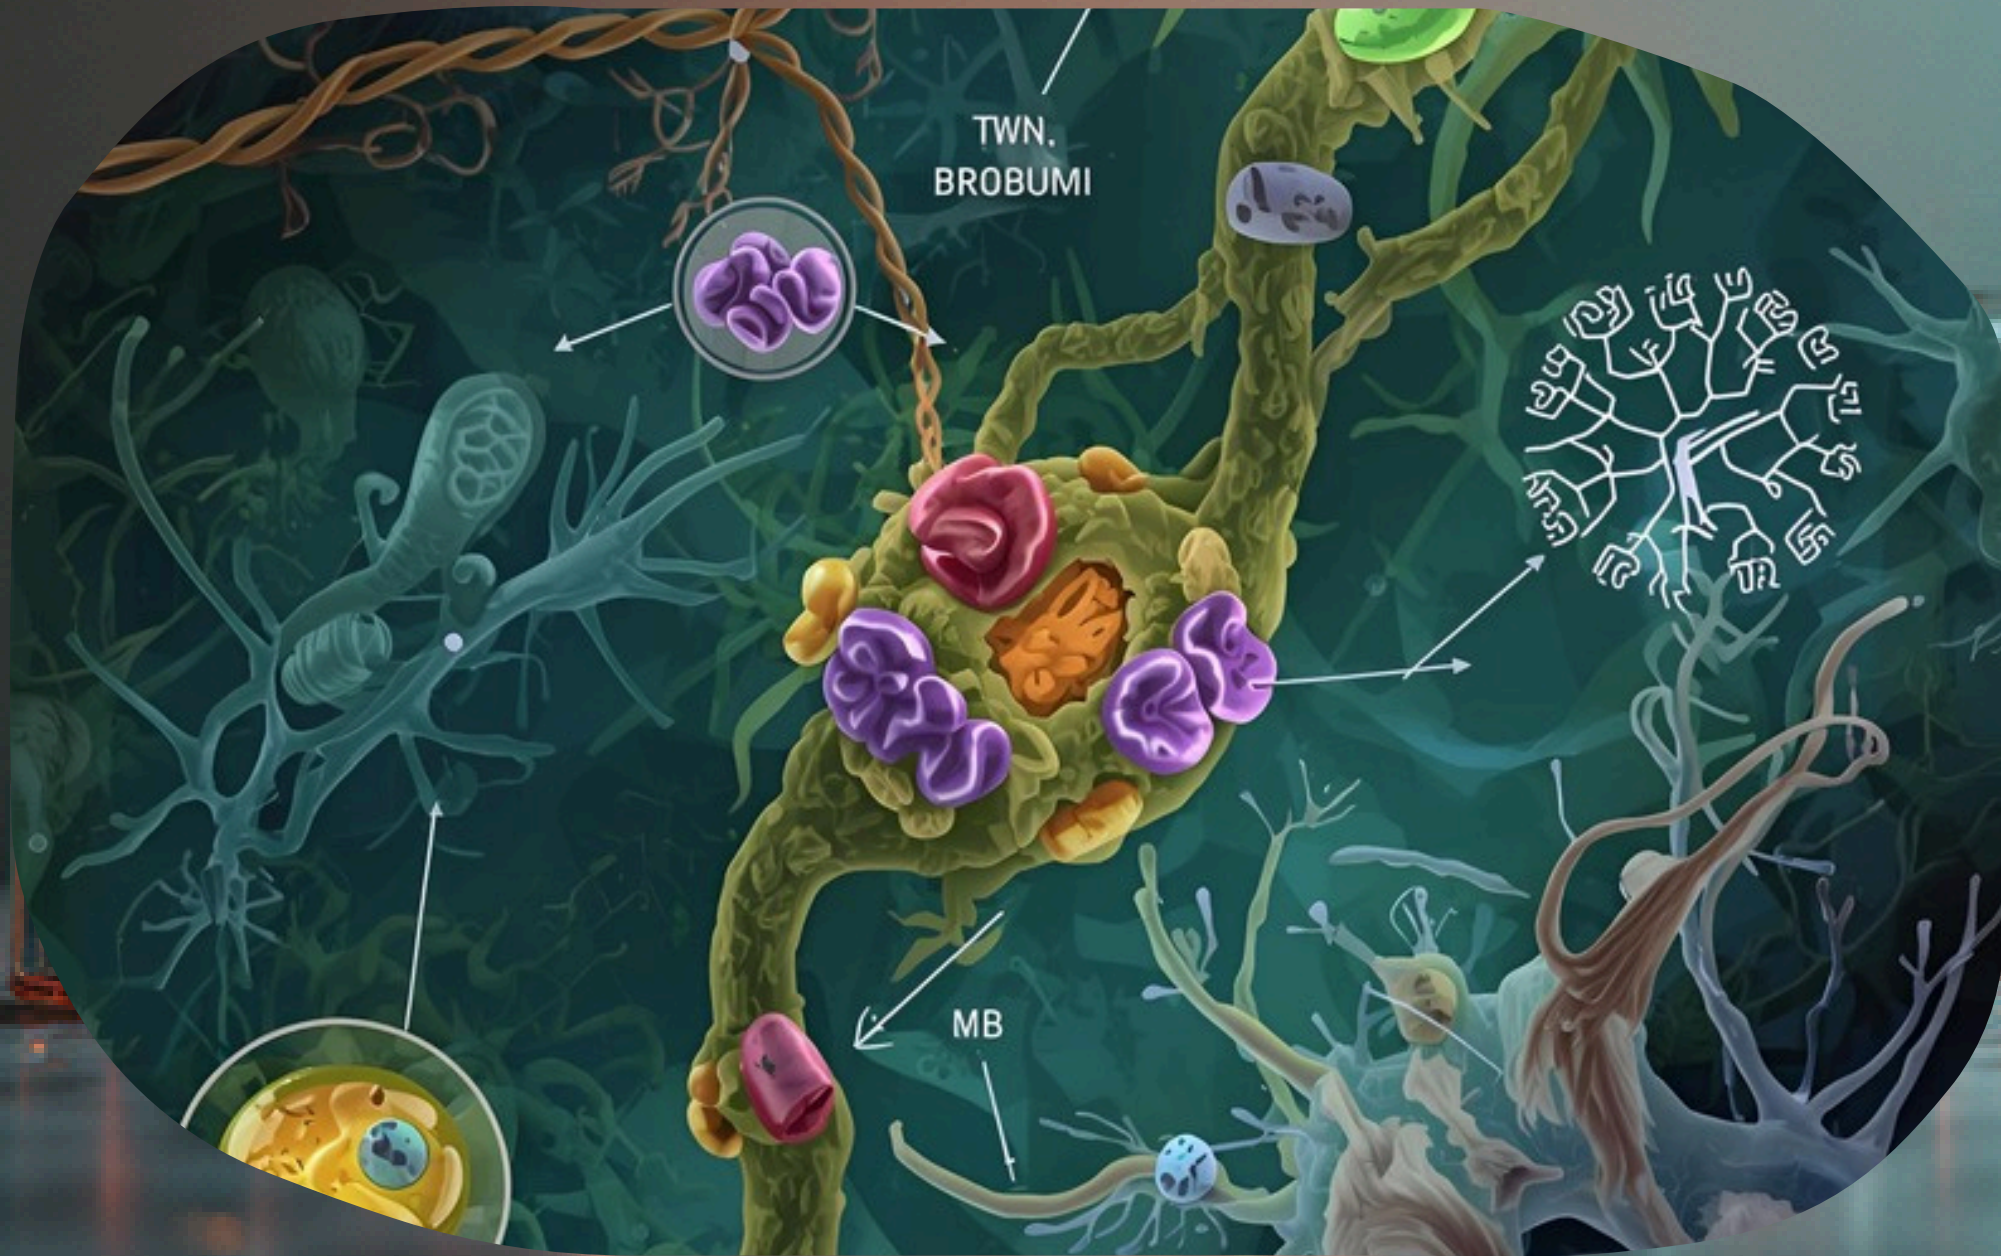

## Sea Weed

- Sea Weed Extract Flakes(100% Soluble)
- Sea Weed Liquid 12%

## NITROBENZENE FOR AGRICULTURE

- Nitrobenzene 80% Ec
- Nitrobenzene 40% Ew
- Nitrobenzene 20% Ew
- Nitrobenzene 60 %Ec
- Nitrobenzene 15% Granules (With Special Emulsifier)
- Nitrobenzene 50% (Dispersible Powder)
- Nitrobenzene Technical(100%)

# PLANT HORMONES

- Gibberellic Acid Technical
- Gibberellic Acid 0.186% S.P
- Brassinolides 0.01% Sp
- Brassinolides 0.1% Sp
- Snp(Sodium Nitrophenolate)
- Da 6 Tech (Fruit Pgr)
- Naa(Naphthaleneacetic Acid )
- Iaa(Indole-3-Acetic Acid)
- Iba(Indole 3 Butric Acid)
- Folic Acid
- 6Ba Tech(Solvent)(6-Benzylaminopurine)
- 6Ba Tech(Koh)
- Jasmonic Tech
- Jasmonic Sp
- Homobrassinolide 0.04
- Homobrassinolide 0.1% SP

# SUDACOAT: SEED COATING POLYMER

Specialized coatings (natural or synthetic) applied to seeds, sometimes containing nutrients, pesticides, or growth promoters.

## Key Functions:

- Protect seeds from pests, diseases, and harsh conditions
- Improve and uniform germination rates
- Supply essential nutrients during early growth
- Enable controlled release of inputs

## Applications:

- Field crops (corn, wheat, soybeans, rice, cotton) Vegetables, flowers, turf, and forage

## Advantages:

- Faster, more uniform germination
- Healthier seedlings
- Better crop establishment

## Dose:

5-7 gm/kg of seed depending upon the type of seed & can be used on all type of seeds
